DETAILED ACTION

Applicant's amendment of claims 35, 36, and 78 in the response dated 5-27-03 is acknowledged.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 3626

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 35, 36 and 71-83 are rejected under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Evans, USPN 6,347,329 or Lonski et al., USPN 6,338,039 or Walters et al., USPN 6,393,404, as applied in the previous office action.

Applicant has amended the claims to require the use of "procedure codes." It is noted that the procedure codes are not defined in the claim language such that any codes would read on the "procedure codes." Nevertheless, the prior art as cited do explicitly disclose the use of procedural codes. See Evans at col. 9 lines 11-12, Lonski et al. at col. 22 line 1, and Walters et al. at col. 3 line 14 for example.

Claims 68-70 are rejected under 35 U.S.C. 103(a) as obvious over Evans, USPN 6,347,329 or Lonski et al., USPN 6,338,039 or Walters et al., USPN 6,393,404, as applied in the previous office action for the same reasons indicated above.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Shults et al., USPN 6,324,516, Chicorel, USPN 6,192,345, Dorne, USPN 5,325,293 and Erickson, USPN 5,229,584 all disclose using procedural or diagnosis codes for patient billing services. The following references as submitted in Applicant's IDS appears relevant and are applicable in art rejections. The article "Tiny

computers come in handy, doctors find" discloses the TRGpro, a palm-top computer which doctors use for coding of medical procedures and diagnosis in order to ensure proper payment (second column). Ballantyne et al., USPN 5,867,821 disclose individual patient care stations interconnected to a master library providing a medical information network (abstract); figures 1 and 6 show multiple computer connections; and col. 2 lines 43-45 indicate billing services. Evans, USPN 5,924,074 is the parent of '329 as applied in the office action. Dirbas, USPN 6,125,350 discloses computer systems using databases for record keeping and billing services (abstract), utilizing codes (figures 6B+). Rensimer et al., USPN 6,154,726 disclose systems and methods utilizing codes at the point of care-provider (abstract).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
